One of the salient features of the AMH SSC is designing of training programmes, based on industry demands of different segments and to ensure that all successful trainees are certified through accredited agency.

The assessment is defined as a structured process in which evidence of performance is gathered and evaluated against approved QPs/NOSs, as approved by the NSDC.

Assessment is the process of evidence collection of the competence level of a person through range of method-tests, observations, interviews, assignments and professional discussions. It is further mandated that competency assessment of the candidate is being done by independent Assessing Bodies (AB), which are not involved in training delivery, to ensure an impartial assessment.
