

Invitation for Content Development in Various Languages for Specific Job Roles

AMHSSC is excited to invite applications for the development of training content in multiple languages tailored to specific job roles within the apparel sector.

Our objective is to create Participant Handbooks and Facilitator Guides in various languages, enriching the learning experience for AMHSSC's courses.

- The content, will be curated for both trainees and trainers in selected job roles, responding to the dynamic demands of the apparel industry.
- The chosen Content Developer will play a pivotal role in developing and producing the requisite training materials in adherence to AMHSSC's Terms and Conditions.
- This invitation aims to provide comprehensive insights into the scope of work involved in this collaborative partnership between the Content Developer and AMHSSC.

Authority Issuing the Invitation:

This invitation is extended by the Apparel Made ups and Home Furnishings Sector Skill Council (AMHSSC).

Decisions regarding the shortlisting of Content Developers will be final, and AMHSSC reserves the right to decline any or all submissions without providing justification.

All the applicants are requested to kindly share their interest latest by 21st May, along with the suggestive quotations for developing PH and FGs in different languages.

Requirements:

- The developer must have experience in these translation of content in different languages.
- The developer must have the facility of formatting the files as per the standard formats prescribed.
- The developer must have experience in working with NSDC, and working under tight deadlines.
- The developer may require to alter the content till the time it is not finally approved.
- The developer shall provide open files along with the .pdf files to AMHSSC for repository and future usage.
